

IPS-CA4 Chart Air Cooled Inverter

Selected Application Notes

Inverter Life Rating
 = 16,000,000 operations in Basic Mode
 = 50,000,000 operations with capacitor maintenance

Area "B" (Basic Mode) = Range 1% - 100% Inverter Duty Cycle:
 Below Inverter curve & below Current Limiter Protection line
 Normal operating area with life rating of 16 - 50 million operations

Area "S" (Special Mode) = Range 1% - 10% Inverter Duty Cycle:
 Below Inverter curve & above Current Limiter Protection line
 Life rating derated - 1 to 16 million operations

Current

500 Amps @10% Inverter Duty Cycle

**Current Limiter Protection:
500A**
